I like the format of your dashboard. It is well structured. I was just wondering how the safety scores, graduation rates, misconduct/suspension visualizations are going to be like. Also, how many machine learning visualizations are you planning to include?

11:18 AM

those are scatter plots and bar graphs, pretty basic charts

it's 4 but it's in subplots

ok sounds good!

Overall, it is nice and simple 😊

can I have some feedback, please?

Salma Tahlil 11:22 AM

yesss, I think it looks good but I know in dash you only get like 12 rows to add your graphs too so maybe just split the bottom graphs to two and two! If you're adding pages maybe separate the graphs to pages that represent a certain question so it flows more!! otherwise it looks good!

11:22 AM

ok thank you!!
